

Care for a career?

Nulsen, The Centre for Cerebral Palsy, identitywa, and Hills Community Support Group in conjunction with Central TAFE and The Disability Services Commission are joining forces to create a comprehensive 12 week Induction and Employment Preparation Program. This unique opportunity is aimed at people wishing to pursue a career in the disability sector.

The program, a first in Australia, will involve participants being employed and paid full time wages for

the duration of the course as a support worker by one of the participating agencies. Successful completion of the program will position applicants for ongoing employment and possible traineeship opportunities.

The program starts February and places are limited, so contact Tracy Fraser on 9427 3812 or email tracy.fraser@central.wa.edu.au for an information pack.

Applications close 5:00pm 8 December 2009.
